

Test Instructions for Star Assessments

The steps below outline the process for students as they log in to take a Star assessment. For more details and the read-aloud instructions, please refer to the [Star Reading](#) or [Star Math](#) Test Administration Manual.

<p>1. Log in to Clever and select the Renaissance tile.</p>	
<p>2. Select the appropriate tile for the test the student needs to take. (Students may not see all of the test options.)</p> <p>Note: Students should NOT click on a tile until the test instructions have been read aloud to the students and they are ready to begin the test.</p>	
<p>3. Indicate testing location.</p> <p>Select Yes if the testing event is taking place at school or other location where a school affiliated, in-person test proctor is present.</p>	
<p>4. Enter the Monitor Password (default is admin) if the Password Requirement has been set.</p>	
<p>5. Begin the test.</p> <p>If students have not taken a test in the past 180 days, the test will begin with practice questions. Students must answer three items correctly to advance to the test.</p> <p>Students will advance directly to the test if they have taken a test within the past 180 days.</p>	
<p>6. If there is an unexpected distraction that presents a need to pause or stop a test, click the Stop Test button at the top right corner of the screen. Then choose either Resume Later to save progress on the test and complete later (within eight days) or Stop Test to start from the beginning the next time the student takes a test. The student will be prompted to enter a monitor password (default is admin) with either action.</p>
